

5-STAND

1. 5-Stand is a miniature version of the popular game of Sporting Clays made to fit onto a Skeet Field.
2. A "Round of 5-Stand" is 25 targets.
3. 5-Stand can be shot with any gauge shotgun, but usually a 12 gauge.
4. There are 5 shooting cages placed in a line.
5. There are 6 to 8 machines located in various locations and each is visibly numbered.
6. At each shooting position, there will be a "Menu" of the shooting sequence for that position placed in front of the shooter.
7. All shooters get to "view" the target presentations prior to the start of the round.
8. The gun may be fully or partially mounted. Shooters choice.
9. Single targets are allowed full use of two shots.
10. Pairs of targets are normally simultaneous; determining which to shoot first is part of the game.
