

SKEET

1. Skeet or “American Skeet” is the name of a discipline (not the name of a clay target).
2. A “Round of Skeet” is 24 targets with the first missed target being repeated for a total of 25 shots.
3. Skeet can be shot with any gauge shotgun.
4. There are 8 shooting stations placed in a semi-circular fashion.
5. There are two machine locations called the “High House” and the “Low House”.
6. At Stations 1, 2, 6 & 7, each shooter will shoot (in turn) a High House Single, a Low House Single and then a simultaneous (if desired) pair. Novice shooters can opt to shoot all targets as singles.
7. At Stations 3, 4, 5 & 8 only a High House and a Low House are shot.
8. The gun may be fully or partially mounted. Shooters choice.
